§52.1004

when scored in accordance with the scoring system outlined in this subpart.

- (b) *U.S. Grade B* or *U.S. Choice* is the quality of whole or pitted dates other than whole dry dates for processing that are of one variety, that possess a reasonably good color, that are reasonably uniform in size, that are reasonably free from defects, that possess a reasonably good character, and that score not less than 80 points when scored in accordance with the scoring system outlined in this subpart.
- (c) U.S. Grade B (Dry) or U.S. Choice (Dry) is the quality of whole dry dates for processing that are of one variety, that possess a reasonably good color, that are reasonably uniform in size, that are reasonably free from defects, that possess a reasonably good character, and that score not less than 80 points when scored in accordance with the scoring system outlined in this subpart.
- (d) U.S. Grade C or U.S. Stand- ard is the quality of whole or pitted dates other than whole dry dates for processing that are of one variety or of date pieces or macerated dates that possess a fairly good color, that are fairly uniform in size except for date pieces or macerated dates, that are fairly free from defects, that possess a fairly good character, and that score not less than 70 points when scored in accordance with the scoring system outlined in this subpart.
- (e) *U.S. Grade C (Dry)* or *U.S. Standard (Dry)* is the quality of whole dry dates for processing that are of one variety, that possess a fairly good color, that are fairly uniform in size, that are fairly free from defects, that possess a fairly good character, and that score not less than 70 points when scored in accordance with the scoring system outlined in this subpart.
- (f) Substandard is the quality of dates that fail to meet the requirements of U.S. Grade C or U.S. Stand- ard or U.S. Grade C (Dry) or U.S. Standard (Dry), whichever is applicable.

FACTORS OF QUALITY

§52.1004 Ascertaining the grade.

In addition to considering other requirements outlined in the standards,

the following quality factors are evaluated:

- (a) Factor not related by score points. (1) Varietal requirement.
- (b) Factors rated by score points. The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

	Points
(1) Color	20
(2) Uniformity of size	10
(3) Absence of defects	30
(4) Character	40
Total score	100

§ 52.1005 Ascertaining the rating for the factors which are scored.

The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "18 to 20 points" means 18, 19, or 20 points).

§ 52.1006 Color.

- (a) (A) classification. Whole or pitted dates that possess a good color may be given a score of 18 to 20 points. "Good color" means that the color of the dates is practically uniform; and, with respect to dates that are predominantly light amber in color, there may be not more than 5 percent by count of dates that are dark amber in color; and, with respect to dates that are predominantly dark amber in color, there may be not more than 5 percent by count of dates that are light amber in color.
- (b) (B) classification. If the whole or pitted dates or whole dry dates for processing possess a reasonably good color, a score of 16 or 17 points may be given. Dates that fall into this classification shall not be graded above U.S. Grade B or U.S. Choice or U.S. Grade B (Dry) or U.S. Choice (Dry), whichever is applicable, regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means that the color of the whole or pitted dates or whole dry dates for processing is reasonably uniform for the type;
